

LIVESTOCK CONTAINERS

LIVESTOCK CONTAINERS

Livestock Containers are fabricated almost entirely in aluminium giving a strong, but lightweight, durable construction. Our livestock container is fully welded; the pressed side sheets are welded to box section posts at 1150mm intervals, and the floor is welded all round. The fully welded design prevents effluent from leaking through onto the trailer below and causing corrosion. We build livestock containers for cattle or sheep. The sheep containers are supplied with folding decks, fixed position dividing doors with slam shut catches and a hydraulically operated run up ramp. There are two air vents on each side, one for each deck of sheep. The folding aluminium sheep decks are usually the length of the pen. The folding decks are supported by aluminium deck bars and are pressed to minimise leakage of effluent to the lower deck.

The deck in the rear section is a hydraulically operated run up ramp to the second sheep deck. The cattle dividing doors are fixed position with slam shut catches. The sheep doors are incorporated into the cattle doors, and are also fitted with slam shut catches. Cattle containers have one air vent at roof height and they are supplied with moveable dividing doors as standard. We can supply the cattle containers with fixed position doors with slam shut catches instead of the standard moveable doors. We normally fit our livestock containers to our Flat Trailers; the trailers are fitted with 435/50Rx19.5 tyres to keep the floor height as low as possible to ensure a gentle gradient on the rear loading ramp.

CATTLE CONTAINERS

LEGNTN MM (FEET)	4900 (16)	6100 (20)	7300 (24)	7900 (26)	8500 (28)	9700 (32)	10900 (36)
MODEL	GX 16 CF	GX 20 CF	GX 24 CF	GX 26 CF	GX 28 CF	GX 32 CF	GX 36 CF
NO. OF CATTLE DOORS	1	1	1	2	2	2	2

SHEEP CONTAINERS FOLDING DECKS

LEGNTN MM (FEET)	6100 (20)	7900 (26)	9100 (30)	10900 (36)
MODEL	GX 20 SF	GX 26 SF	GX 30 SF	GX 36 SS
NO. OF CATTLE DOORS/ SHEEP DOORS	1 (10', 10')	2 (10', 8', 8')	2 (10', 10', 10')	2 (12', 12', 12')
